## 01 — THESIS

# Disciplined capital, compounding patiently.

Qnity Quest is a managed PAMM strategy executed on Vantage Markets, trading exclusively XAU/USD with a rules-based, risk-first methodology. Investors retain custody at the broker; we direct allocation only.

01

## Risk First

Capped per-trade exposure. Defined drawdown thresholds. No martingale, no grids.

02

## One Instrument

Deep specialisation in gold. Two years of pattern, liquidity and volatility memory.

03

## Transparent

Every trade reconciled at the broker. Investors verify, never assume.

02 — PERFORMANCE
